Introducing the **XSEBATVIP8MP36-AI+**, a high-performance security camera designed to deliver reliable monitoring and clear video quality in various environments. Providing real-time video output at a maximum resolution of 3840x2160@30fps, it ensures detailed and smooth surveillance for everyday security applications. Equipped with AI-ISP technology, the camera delivers excellent noise reduction, improving image clarity in different lighting conditions. Intelligent analytics further enhances monitoring capabilities, enabling smarter and more efficient surveillance. The camera supports warm light and infrared dual supplementary lighting, allowing effective monitoring both during the day and at night. It also supports backlight compensation, strong light suppression, 3D digital noise reduction, and a 120dB wide dynamic range, making it suitable for different video environments while maintaining balanced image quality. For added functionality, the device is equipped with 1 built-in microphone and 1 built-in speaker. Built for durability, it is designed to meet IP67 dust and water resistance standards, ensuring reliable performance in both indoor and outdoor environments.
